哑黑

3031

智能木门锁系列

用心打造每一把时尚、快捷、
智能的高档门锁

锌合金材质
具有良好的抗锈耐腐蚀性较强的硬度，安全坚固。

# 3031

Smart wooden door lock series

Product parameter

Main material: zinc alloy
Installation center distance: 50*50mm
Scope of application: indoor wooden doors
Main functions: fingerprint, password, smart card, mechanical key
Fingerprint capacity: 99 pieces
Password capacity: 99 groups
Card capacity: 99 groups
Performance technical indicators: using live biometric fingerprint authentication technology, the sensor is more sensitive
General card: IC m1
Static power consumption: ≤20UA
Low voltage prompt: 4.8V
Applicable temperature: -20℃-60℃
Dynamic power consumption: about 150mA
Supply voltage: 6V
Power supply: 4 AAA (genuine) alkaline batteries

Intelligent anti-theft door lock series

Product parameter

Main material: zinc alloy
Installation center distance: 60*68mm
Scope of application: outdoor doors, villa doors, security doors, aluminum doors, solid wood doors, stainless steel doors
Main functions: fingerprint, password, smart card, mechanical key
Fingerprint capacity: 300 pieces
Password capacity: 300 groups
Card capacity: 300 groups
Performance technical indicators: using live biometric fingerprint authentication technology, the sensor is more sensitive
General card: IC m1
